

AGED CARE

Feature Projects

FEATURE PROJECTS

Bethanie Group offers a number of welcoming aged care and retirement lifestyle villages across WA. Following the construction of their outstanding facility in Gwelup, Bethanie engaged R-Group to provide a number of communication and entertainment services including:

- Installation of Audio-Visual Systems
- Fixed and Wireless Internet Services
- Telephony Services
- Customised Communication and Entertainment System for residents.

R-Group proactively managed the materials and waste from the deployment in order to retain the pristine room environments to ensure that residents had access to the in-room entertainment system upon arrival.

Bethanie

Eden Life provides its over 50 residents with an independent, resort-style lifestyle within a safe and welcoming community in Australind WA.

R-Group have partnered up with Edenlife to provision and provide bundled telecommunication packages to the residents at the Edenlife Villages. These bundled services include:

- Affordable Internet and Telephony packages
- Entertainment Systems including Free to Air TV and Movies on Demand
- Information Services for residents

EDENLIFE™

NATIONAL LIFESTYLE VILLAGES

National Lifestyle Villages (NLV) is the leading provider of land lease communities across the state for Western Australians looking to downsize later on in life.

Aged Care Residents and Lifestylers are able to maintain their independence and gain access to community facilities, social clubs, and peace of mind for security within the community.

Since 2018, R-Group has provided an enhanced bundled internet and telephony solution that enables over 3000 homeowners to stay connected and communicate from the comfort of their own homes.

Given the effects of COVID-19 in 2020, providing aged care residents and lifestylers with a connection to their friends and family has helped in reducing the chances of social isolation within aged care accommodation facilities.

Our bundled telephony and internet services are available at a majority of NLV sites spread across Western Australia.

PELICAN MANUFACTURING

R-Group has provided ICT support for Pelican Manufacturing since 2003. Established over 30 years ago this leading Perth based family owned company design, manufacture and supply products to aid daily living particularly for elderly and disabled people.

Whilst working with Pelican our service provision has included managed services, project management and telecommunications services which span across many delivery areas including:

- On-site and remote support
- Provision of internet services
- License procurement and renewal
- ICT equipment procurement and install
- Backup management and recovery
- Server upgrades
- On-premise PBX
