

Village Entertainment Solution

Connecting your onsite residents to the information they want and need.

How does it work?

Our Village Entertainment Solution provides customers with a fully customisable platform of features offering world-class blockbuster entertainment with the latest movies, custom branded site services, health & wellbeing resources and information specific to your site and residents.

As experiences are continuing to evolve and residents are craving the convenience of home, our village entertainment solution now provides seamless access to a user's own streaming service through easy to use casting functionalities. The features built into the system ensure that you maximise resident satisfaction outside of their working hours onsite.
